(note that some projects might take less time and others more, so please allow for 15-30 fluctuation before and/or after the presentation you plan to view)

Students will present both their biography and/or science board/experiment. Please make sure your child is present on the day he/she is expected to present. Be sure to provide your child with **ALL** of the materials necessary to conduct their experiment. We would also recommend having them read over their biographies and experiment data so that they are familiar with the content and make few mistakes while presenting. Students, who are absent with an excuse, must make an appointment to present to one of the third grade advocates during recess or lunch.

Judging will take place on Wednesday afternoon, and project viewing will take place on Thursday from 8:00 – 10:00 and from 2:00 – 4:00. You can come and view all projects during that time, see the winners, and scribes will be on hand to answer any questions.

Come out and support our scribes. They worked hard, and they would love to have you.

Thank you,
Third Grade Advocates
